

Construction Material Alliance Pty

Candyland Factory, Pakistan

PROJECT DETAILS	
COUNTRY	Pakistan
SITE	Candyland Factory
CLIENT	Ismael Industries
APPLICATOR	Fawchem Construction
AREAS TREATED	Roofdecks 715m ²
YEAR	2024

4 hours for the full waterproofing of an industrial rooftop!

This is what it took to re-waterproof the entire rooftop of Candyland Factory with CMA100, after the initial membrane failed... which happened very fast after its installation. And all while the factory was in operation, without any interruption of their operation!

CMA100 is the fastest and more efficient waterproofing material in the global market. It requires no re-application in future, no maintenance, no inspection. Simple as that!

Lifetime, **problem-free** concrete waterproofing.
