

Construction Material Alliance Pty Ltd  
**Suntrust Amadea, Philippines**

The twin towers of Suntrust Amadea boast 1315 units of modern contemporary construction.

CMA100 was chosen for the waterproofing of the rooftop decks, for its super-fast, single-coat application, that requires no maintenance or re-application in future.

Property developers particularly enjoy using CMA100, as it lowers the cost of construction and future cost of use of any project.

Lifetime, **problem-free** concrete waterproofing.
